What is Bluetooth? Bluetooth®

Bluetooth is a wireless technology used to transmit data, speech, music, or images over short distances. The primary benefit of Bluetooth is wireless freedom. Because Bluetooth eliminates the need for annoying cables, you're now free to communicate untethered. Bluetooth is also universally compatible, allowing manufacturers to offer a variety of Bluetooth products like headsets, cell phones, and MP3 players.

When Performance Matters... Only a **Corded** Headset will do!

You just can't beat the performance of a corded headset for exceptional sound, durability, and supreme comfort! Whether you're outfitting a busy call center or buying a headset for yourself, we've got an exciting array of headsets to match your business needs!

Top 5 Reasons to go Corded!

- Superior, interference-free sound
- Increased comfort and productivity
- Durable and built to last
- Widest variety of headset styles
- 99% compatibility with your phone

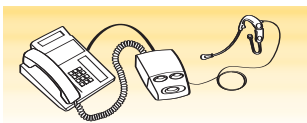

Plus...

- FREE Lifetime Technical Support
- 2-Year Warranty on most corded headsets

We've got a headset for virtually any type of phone!

Standard Office Phones

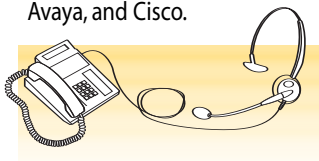

Our Hello Direct and GN Netcom headsets connect to any standard office phone! Just select the required amp of your choice and you've got an incredible-sounding headset! Ideal for contact centers and office professionals.

Direct Connect Phones

(with a built-in amplifier)

Any one of our GN Netcom headsets are designed to work with phones with a built-in amplifier... like Nortel, Avaya, and Cisco.

Corded, Cordless and Cell Phones

Get more done when you operate hands free with our Hello Direct headsets! Simply plug the headset into the 2.5 mm jack on your corded, cordless, and cell phones and watch your productivity soar. A smart choice for your small business!

IP Phones and Computer Use

The GN Netcom series of IP and USB headsets offer superior sound from your IP phone, softphone, music and multimedia applications. Check them out on page 19!

Two great headset brands!

HELLO
Direct

Hello Direct produces the most durable and reliable headsets at an exceptional value!

GN Netcom

GN Netcom develops innovative headsets with the most advanced technology!

How to choose a headset:

1. Select your headset wearing style.

Over-the-head

Durable, super-stable fit.

Over-the-ear

Does not interfere with your hair.

In-the-ear

Delivers clear sound directly in your ear.

2. Choose your microphone boom style.

For QUIET offices...

SoundTube

For NOISY offices...

OP or Flex

For VERY NOISY offices...

EX or Ultra Noise-Cancelling (UNC)

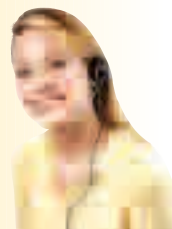

3. Select an amplifier for your standard office phone.

Most standard office phones require an amplifier unless they have a built-in amplifier (Direct Connect phones). Amplifiers provide power between your phone and headset... plus, put volume, mute, and more right at your fingertips! Your amplifier choices are shown at the bottom of page 11.

Not sure which headset to buy?

Designed for...
comfort and
stability *and for those*
who don't like headbands.

Customize your own fit!

Our super-flexible Solo II lets you shape the earhook to the exact contour of your ear! Weighing just an ounce, it also filters out extraneous noise with an ultra noise-cancelling microphone.

Priced from
\$105.00
Amp required

The entire hook is flexible, not just the back and bottom. Three notches even help you form it into an "S" or "Z" shape!

Two for the price of one!

Easily switch from headband-style headset to flexible earhook with the value-priced Solo Convertible! Equipped with a noise-cancelling microphone, you'll hear exceptional voice transmission at all times.

Switch styles as needed!

Use the customizable earhook...

...or the stable headband.
